SUMMARY

A skilled entry-level web developer s with a strong background in HTML, CSS, JavaScript, jQuery, React.js, API development, and database management. Proficient in using the MERN stack (MongoDB, Express, React, Node.js) to build and deploy modern, responsive web applications, including Progressive Web Applications (PWAs). Able to work effectively in a team environment, and committed to staying up-to-date with the latest technologies, best practices in web development and building scalable web solutions.

TECHNICAL SKILLS

HTML, CSS, Javascript, jQuery, Web APIs, React, Node.js, Express.js, Model-View-Controller, Paradigms, SQL, MongoDB and
Mongoose, Progressive Web Application Paradigms

EXPERIENCE

SOS Product Specialist - Capital Markets

Rocket Mortgage

January 2021 - November 2022, Cleveland, OH

- Determine root causes of loan failure reasons, automated underwriting system errors, issues with credit and loan stoppers.
- Reviewed external client documents to determine if guidelines were met to clear loan stoppers.
- Suggest viable solutions to internal team members to get the loan back on track when a stopper cannot be cleared.
- Make any needed adjustments to loan files and run the loan through the automated underwriting system.
- Effectively communicate accurate answers and/or recommendations to guideline and documentation questions.
- Specialize in new products that are released, to be able to answer questions about guidelines and how to set up the loan file.
- Collected internal request data and created self-help trails within Pathfinder that lead to drastic reductions in similar requests.
- Consistently exceeded my monthly production goals every month.

Mortgage Loan Originator

Rocket Mortgage

September 2019 - January 2021, Cleveland, OH

- Helped clients secure financing through Conventional, VA and FHA loan products.
- Responsible for loan origination and assisting a high-volume number of clients in the refinance process while abiding by state and federal guidelines.
- Frequently assigned as a Team Captain in newer banking areas to assist with training new bankers while teaching them products and guidelines.
- Worked and trained new team members in internal Rocket technology such as AMP, LOLA, Pathfinder, Loan Compass, etc.
- Consistently exceeded my monthly production goals every month.
